

## Regional Science Collaborative: TCT Post-Task Analysis & The Nature of Science

**February 13, 2017**  
**8:30 a.m. to 3:30 p.m. (CST)**  
Workshop #086-17

**GRREC Office & Training Facility • 230 Technology Way • Bowling Green, KY**

This Regional Science Collaborative meeting will provide support for science teachers with the third phase of KDE's Through Course Task (TCT) process: post-task calibration and analysis of student work. This session will act as a follow-up to the initial meeting on January 12. Teachers will have the opportunity to reconvene in regional PLCs to review and discuss student work with others who implemented the same TCTs, and create a plan for next steps in the classroom. Participants will also delve deeper into the concept of "how science works" and explore strategies to uncover and address common student misconceptions. All K-12 teachers responsible for science instruction in the GRREC region are welcome to attend; participation in the initial training is not required.

Professional learning opportunity will include:

- Time embedded to complete the third cycle of KDE's new Science Through Course Task (TCT) formative assessment process in small groups.
- Analysis of student work from specific TCTs in regional PLCs of same grade level/content area teachers.
- Exploration of strategies to uncover misconceptions and help students with the scientific sense-making process.
- The opportunity to connect in a meaningful way with other science teachers from around the region.

**Audience:** All K-12 Science Teachers

**Presenters:** Jennifer Sheffield, STEAM Consultant at GRREC

**Location:** GRREC Office & Training Facility • 230 Technology Way • Bowling Green, KY 42101

**Time:** 8:30 a.m. – 3:30 p.m. – Breakfast & Registration will begin at 8:00 a.m.

**Cost:** No charge

**Meals:** Breakfast will be provided. Lunch will be on your own.
